Prices. All prices and other quotations not accepted to date are hereby cancelled.

For less than five of a kind and size of these items, please add 10%.

Because of rapidly changing conditions we reserve the right to revise prices in this list if necessary.

All prices are for goods at our nursery unless otherwise stated.

Terms. 2% for cash, 10 days from date of invoice, except on packing, prepaid freight, Royalties, etc., which are net. 30 days net to buyers of known and established credit, otherwise cash with order, or 25 per cent with order and balance C.O.D. 1% per month interest may be charged after 60 days.

Pro-Rate. All orders are booked subject to crop yield and pro-rate, in the event a smaller crop is harvested than was anticipated.

Grading and Packing. Plants wider than tall are graded by width. Packing at cost, as usual. Plants will be packed to secure the lowest possible classification consistent with the nature of the goods shipped.

Shipping. Our responsibility ceases when goods are delivered to transportation company in good order. They travel at buyer's risk. Please state distinctly whether you wish goods shipped by freight, express or truck line. A moderate charge will be made for delivery by our trucks to areas over 50 miles distant from nursery.

Warranty. Seller gives no warranty, express or implied, as to the variety or productivity of any nursery stock he sells. Liability in all instances is limited to the purchase price. No liability is assumed by the seller for delay or failure to deliver caused by wars, strikes, fires, floods, droughts, embargoes or any other contingencies beyond seller's control. If the purchaser does not accept the goods on these terms they are to be returned.

Complaints. Must be made in writing within 10 days after buyer receives the goods.

FOR YOUR CONVENIENCE, USE THE ORDER BLANK
ENCLOSED AT END OF LIST

Prices. All prices and other quota date are hereby cancelled.

For less than five of a kind and size add 10%.

Because of rapidly changing conditions, we reserve the right to revise prices in this list if necessary.

All prices are for goods at our nursery. Freight is extra.

Terms. 2% for cash, 10 days from date of invoice on packing, prepaid freight, Royalties 30 days net to buyers of known and established varieties, otherwise cash with order, or 25 per cent with C.O.D. 1% per month interest may be charged on C.O.D. days.

Pro-Rate. All orders are booked on a pro-rata basis and pro-rate, in the event a smaller crop than anticipated was available.

Grading and Packing. Plants wider than 12 inches by width. Packing at cost, as usual. We will endeavor to secure the lowest possible classification for the nature of the goods shipped.

Shipping. Our responsibility ceases when goods are delivered to transportation company in good condition, at buyer's risk. Please state distinctly whether goods shipped by freight, express or truck. Extra charge will be made for delivery by other than truck. 50 miles distant from nursery.

Warranty. Seller gives no warranty as to the variety or productivity of plants sold. Liability in all instances is limited to purchase price. No liability is assumed by the seller for delay or failure to deliver caused by wars, strikes, fire, floods, embargoes or any other contingencies beyond the seller's control. If the purchaser does not accept the goods, they are to be returned.

Complaints. Must be made in writing within 10 days after buyer receives the goods.

New Items

In addition to our regular lines we are continually developing or introducing additional *novelties and specialties*. For the past 25 years we have doubtless imported the greatest assortment of new and rare woody plants brought into this country during that period, and at the same time have carried on a program of breeding various woody ornamentals, including Lilacs, Flowering Quinces, Flowering Fruit Trees, etc.

In order to call your attention to some of these items that are now available we have "boxed in" many plants of special interest.

GARDEN ARISTOCRATS

We have again issued a special colored brochure describing and illustrating many of our finest items. Copies will be mailed to all nurserymen on our list, and additional copies will be available to all nurserymen. Write us for further information on this brochure.

ABBREVIATIONS

Letters A, B, C, D, E, etc., after variety names indicate sizes available.

DESCRIPTIONS

Short descriptions have been included in this list. Where further information may be desired it will be given promptly on request.

HARDINESS RATINGS

As this list goes all over the U. S. A. and also abroad, we believe it a good idea to indicate hardiness. This has been done by giving after the name of each item a number in () indicating the zone in which it is considered hardy. Please understand that ratings show our honest opinion, but we disclaim all responsibility for their correctness. Please refer to map in center of book, used by courtesy of Arnold Arboretum and McGraw Hill Book Co.

PINTO TAG

We take pride in being a "Pinto Tag" nursery, enabling us to ship into nearly all California Counties with no point of destination inspection required.

LOCATION

Office and Sales Yard located on the Old Oakland Road at Coyote Creek Bridge, about one-fourth mile north of San Jose City Limits. Other growing grounds are within a mile or two of the office. Visiting nurserymen are welcome at all times.

IMPORTANT NOTICE FOR EASTERN NURSERYMEN

Out here everything east of the Rockies is "Eastern." During January and February we ship several heated refrigerator cars to eastern points. Where size of order justifies, we can nearly always arrange for carload service to destination or some nearby point for pickup or reshipment. The total transportation charges for each car will be prorated among all customers who have goods in it.

Conifers

Unless otherwise stated, all plants in this section will be balled at prices quoted.

ABIES nordmanniana (4)

NORDMANN FIR

One of the very best Firs. Needles dark glossy green above and silvery beneath.

2 to 2½ ft.....	3.00
1½ to 2 ft.....	2.50
15 to 18 in.....	2.25
gal.85

pinsapo (6)

SPANISH FIR

Very regular and symmetrical. Stiff green needles.

2 to 2½ ft.....	3.00
1½ to 2 ft.....	2.50
15 to 18 in.....	2.25
gal.75

pinsapo glauca (6)

BLUE SPANISH FIR

Foliage silvery. Slower and more compact grower than preceding variety.

4 in. pot grafted.....	1.00
------------------------	------

CEDRUS atlantica glauca (6)

BLUE ATLAS CEDAR

Young plants have a stiff open appearance but quickly develop into beautiful full specimens.

3½ to 4 ft.....	3.50
3 to 3½ ft.....	3.00

atlantica glauca pendula (6)

WEeping BLUE ATLAS CEDAR

An exact counterpart of the beautiful Blue Atlas Cedar except that branches grow almost directly downward.

Sold out for this season.

deodara (7)

DEODAR CEDAR

Makes a large graceful specimen tree. Foliage gray-green.

8 to 10 ft.....	10.00
7 to 8 ft.....	7.50
6 to 7 ft.....	6.00
3 to 4 ft.....	3.00

CEDRUS (continued)

deodara repandens (7)

SPREADING DEODAR CEDAR

A very attractive weeping form of picturesque habit. Should be staked for first few years.

4 to 4½ ft.....	4.50
3½ to 4 ft.....	4.00
3 to 3½ ft.....	3.50
2½ to 3 ft.....	3.00

CHAMAECYPARIS lawsoniana ellwoodi (5)

ELLWOOD CYPRESS

A moderate grower of columnar habit. Foliage silvery blue, fine and lacy. All our plants are grafted as these have proven to be more vigorous and disease resistant.

3½ to 4 ft.....	4.00
3 to 3½ ft.....	3.50
2½ to 3 ft.....	3.00
1½ to 2 ft.....	2.25
5 gal.	2.00
gal.75

lawsoniana forsteckiana (5)

FORSTECK CYPRESS

Dwarf, globular form with dense crowded branchlets, giving the appearance of deep green moss.

4 in. pot grafted.....	.65
------------------------	------------

lawsoniana knowfeldensis (5)

KNOWFELD CYPRESS

Habit graceful, upright and arching. Sage green foliage.

gal.75
-----------	------------

lawsoniana minima (5)

DWARF LAWSON CYPRESS

Extremely dwarf and compact with dark green plumose foliage.

gal. grafted	1.25
4 in. pot grafted.....	.85

lawsoniana minima aurea (5)

GOLDEN DWARF LAWSON CYPRESS

Differs only from above in its golden foliage.

4 in. pot grafted.....	.85
------------------------	------------

CHAMAECYPARIS (continued)

lawsoniana moerheimi (5)

MOERHEIM GOLDEN LAWSON CYPRESS

Bushy, erect habit. Tips of branches yellow variegated. A good sturdy grower and transplants easily.

3	to 3½ ft.	3.00
2½	to 3 ft.	2.50
2	to 2½ ft.	2.00
gal.		.75

lawsoniana nidiformis (5)

BIRDNEST CYPRESS

Branches semi-ascending and drooping toward tips. Natural growth wider than tall.

gal.	.75
------	-----

lawsoniana stewarti (5)

WINTERGOLDEN LAWSON CYPRESS

Growth slow, compact and erect. Remains as brilliantly golden in winter as in summer.

2½	to 3 ft.	2.50
2	to 2½ ft.	2.00
gal.		.75

obtusa (3)

HINOKI CYPRESS

A very decorative Japanese tree; branches flattened, frond-like and drooping.

2 gal.	1.75
4 in. pot	1.00

obtusa nana (3)

DWARF HINOKI CYPRESS

4 in. pot grafted	1.00
-------------------	------

pisifera aurea compacta nana (3)

YELLOWDWARF SAWARA CYPRESS

Extremely dwarf and compact. Golden acute foliage.

4 in. pot grafted	1.00
-------------------	------

squarrosa cyano-viridis (4)

BLUE GREEN MOSS CYPRESS

A very showy plant with soft finely textured blue-green-gray foliage. Grows fast, compact, and is hardy.

gal.	.75
------	-----

CRYPTOMERIA japonica nana (5)

DWARF CRYPTOMERIA

Slow growing globular habit.

gal.75

JUNIPERUS chinensis columnaris (4)

BLUE COLUMN CYPRESS

Erect formal pyramidal habit. Foliage slightly silvery.

gal.75

chinensis Maney (4)

MANEY JUNIPER

Semi-erect, spreading bushy habit with a bluish cast in the color of foliage.

4 to 5 ft. 3.50

3 to 3½ ft. 3.00

2½ to 3 ft. 2.75

1½ to 2 ft. 2.50

gal.75

chinensis Obelisk (4)

OBELISK CYPRESS

A hardy, narrow columnar form with very long, rigid needles of a fine, never-changing blue color. Requires no trimming.

3 to 3½ ft. 3.00

2½ to 3 ft. 2.75

2 to 2½ ft. 2.50

gal.75

chinensis pfitzeriana (4)

PFITZER JUNIPER

Fast growing spreading Juniper with deep green foliage.

gal.60

chinensis pfitzeriana glauca (4)

BLUE PFITZER JUNIPER

A blue form of Pfitzer Juniper.

gal.65

chinensis procumbens albo-variegata (4)

WHITELEAF CHINESE CREEPING JUNIPER

Growth slow, low and spreading, with attractive white variegation.

1½ to 2 ft. 2.50

1 to 1½ ft. 2.25

gal.75

JUNIPERUS (continued)

chinensis "San Jose" (4)

SAN JOSE CREEPING JUNIPER

Found here as a sport of one of the creeping Junipers. Color is about sage green, much more pleasing than Chinese Creeping Juniper. Shows no variegation but has a mixture of adult and juvenile foliage. After many years test it has become very popular and is now our best seller in prostrate Junipers.

2½ to 3 ft.....	2.50
2 to 2½ ft.....	2.25
gal.75

chinensis torulosa (4)

TWISTED CHINESE JUNIPER

Growth gracefully fan-shaped, upright and arching. Dark green foliage.

3 to 4 ft.....	3.00
2½ to 3 ft.....	2.75
2 to 2½ ft.....	2.50
1½ to 2 ft.....	2.25
gal.65

communis compressa (2)

DWARF IRISH JUNIPER

Dwarf, slender and erect with deep silvery foliage.

4 in. pot.....	.75
----------------	-----

conferta (5)

SHORE JUNIPER

Creeping form with light green foliage.

gal.75
-----------	-----

coxi (7)

COX JUNIPER

Handsome pyramidal tree with weeping branches.

gal.75
-----------	-----

horizontalis glauca (2)

BLUE CREEPING JUNIPER

Steel blue foliage throughout the year.

gal.75
-----------	-----

JUNIPERUS (continued)

occidentalis glauca (4)

SILVER SIERRA JUNIPER

A fine silvery blue form of the Sierra Juniper.
Habit slim and conical.

gal.75

sabina tamariscifolia (4)

TAMARIX JUNIPER

Slow growing, low spreading Juniper with blue-green foliage.

2 to 2½ ft.2.50

1½ to 2 ft.2.25

1 to 1½ ft.2.00

gal.65

scopulorum Blue Haven (5)

BLUE HAVEN ROCKY MOUNT. JUNIPER

Fine textured foliage, deep blue.

3 to 4 ft.3.00

2½ to 3 ft.2.50

2 to 2½ ft.2.25

squamata meyeri (4)

MEYER JUNIPER

Irregular spreading habit. Foliage silvery blue.

1½ to 2 ft.2.25

1 to 1½ ft.2.00

gal.75

virginiana lebretoni (3)

LEBRETON EASTERN REDCEDAR

Growth erect and compact. One of the most intensely glaucous conifers known.

gal.75

LIBOCEDRUS chilensis (6)

CHILEAN INCENSE-CEDAR

A symmetrical pyramidal conifer. Foliage soft green.

4 to 5 ft.3.50

2½ to 3 ft.2.50

gal.75

decurrens (5)

INCENSE-CEDAR

A very symmetrical pyramidal form; tall and compact, with dark green foliage.

gal.75

METASEQUOIA glyptostroboides (4-5)

DAWN REDWOOD

A beautiful, rapid growing deciduous conifer resembling native California Redwood.

gal. 1.25

PICEA excelsa (2)

NORWAY SPRUCE

Most popular Conifer for outdoor Christmas trees.

2 to 2½ ft. 2.25

5 gal. 2.00

gal.75

glauca conica (2)

DWARF ALBERTA WHITE SPRUCE

Dense, slow growing conical tree.

gal. 1.00

pungens (green) (2)

COLORADO SPRUCE

A formal tree with close stiff branches. Color varies from light to dark green.

2½ to 3 ft. 3.50

2 to 2½ ft. 3.00

1½ to 2 ft. 2.50

5 gal. 3.50

gal.85

pungens moerheimi (2)

MOERHEIM BLUE SPRUCE

Improved deep blue form of Colorado Spruce.

Sold out for this season.

smithiana (6)

HIMALAYAN SPRUCE

Tall pyramidal tree with long drooping branches.

5 gal. 3.00

PINUS halepensis (7)

ALEPPO PINE

Hardy, bushy form. Foliage light green.

gal.65

mugo mughus (2)

DWARF MUGHO PINE

Probably the dwarfest of all Pines. Grows about as wide as high.

gal.75

PINUS (continued)

pinea (7)

ITALIAN STONE PINE

Spreading flat-topped form.

gal.65

radiata (7)

MONTEREY PINE

Medium sized, picturesque fast growing pine.

8 to 10 ft.....10.00

7 to 8 ft.....7.50

6 to 7 ft.....5.00

5 to 6 ft.....3.50

gal.55

SEQUOIA sempervirens (7)

REDWOOD

Tall, graceful native of California.

gal.60

TAXUS baccata fastigiata (6)

IRISH YEW

Columnar habit, dark green foliage. Slow growing.

6 to 6½ ft.....6.00

5 to 6 ft.....5.50

4½ to 5 ft.....5.00

4 to 4½ ft.....4.50

10% discount on orders of 20 or more of total ordered.

baccata fastigiata aurea (6)

GOLDEN IRISH YEW

5 gal.2.50

baccata Silver Green (6)

SILVER GREEN SPREADING YEW

A neat compact spreading form with rich deep green foliage with a slight silvery cast.

2 to 2½ ft.....2.50

gal.75

cuspidata (4)

JAPANESE YEW

Large tree erect or spreading; hardy.

1½ to 2 ft.....3.25

gal.75

THUYA occidentalis pyramidalis (2)

PYRAMIDAL EASTERN ARBORVITAE

Narrow pyramidal habit. Deep rich green foliage.

gal.60

orientalis aurea nana (5-6)

BERCKMANS GOLDEN ARBORVITAE

Dwarf, compact form of rich golden color.

15 to 18 in.....2.25

12 to 15 in.....2.00

gal.75

orientalis compacta (4-5)

COMPACT ORIENTAL ARBORVITAE

A slow-growing, compact, green form.

15 to 18 in.....2.25

12 to 15 in.....2.00

AUCUBA japonica nana

(see page 13)

For a complete and up-to-date descriptive list of
BUSH, CLIMBING and TREE ROSES,
ask for our List No. 5801.

Broad Leaved Evergreens

Unless otherwise stated, all plants in this section will be balled at prices quoted.

ABELIA floribunda (8)

MEXICAN ABELIA; RED ABELIA

Small shrub with glossy dark green foliage producing tubular rosy red flowers 1½ to 2 inches long. Requires partial shade.

gal.50

hyb. Edward Goucher (6)

Similar to *A. grandiflora* but bearing lilac-pink instead of white flowers in great profusion throughout the summer.

gal.50

ARBUTUS unedo (7)

STRAWBERRY MADRONE

Large, handsome shrub with dark green leaves. Bears red strawberry-like fruits in winter.

gal.50

unedo compacta (7)

COMPACT STRAWBERRY MADRONE

gal.50

ARDISIA japonica (6)

JAPANESE ARDISIA

An attractive slow growing acid-loving shrub to 18 in. high. When only four or five inches tall it commences to bear pale pink flowers followed by showy red berries.

gal.65

ARISTOTELIA racemosa (8?)

NEW ZEALAND WINEBERRY

An evergreen tree to 15 or 20 ft. Leaves about 5 inches long and deeply serrate, light green on surface and ruddy beneath. Small rose colored flowers are followed by dark red or nearly black berries in clusters.

gal.60

AUCUBA japonica (male) (7)**JAPANESE AUCUBA**

All of our berry-bearing Aucubas are grown from cuttings taken from female plants but must be pollinized by male plants in order to produce berries.

gal.60

japonica Croton (7)**CROTONLEAF AUCUBA**

Slower growing but otherwise similar to other variegated Aucubas but the brilliance and intensity of its golden variegation far surpasses them. This is a male form and can be used as a pollinizer.

gal.75

japonica fructo-albo (7)

Foliage profusely and brightly silver-variegated. Fruit pale pinkish-buff. Requires shade.

gal.60

japonica maculata (7)**GOLD DUST AUCUBA**

Large green leaves covered with yellow dots. Berries red.

gal.60

japonica nana (7)**DWARF AUCUBA**

A dwarf green leaved form bearing heavy clusters of unusually large berries.

5 gal. 2.50

gal.60

japonica salicifolia (7)**LANCELEAF AUCUBA**

Leaves clear deep green, long and narrow. Bears heavy clusters of bright red berries.

gal.60

japonica "San Jose" (7)**SAN JOSE DWARF AUCUBA**

A slower growing form with a somewhat spreading habit. Foliage, large, shiny dark green with no variegation.

gal.60

AZARA gilliesi (7-8?)

GOLDEN AZARA

A beautiful shrub with holly-like foliage. Bears golden flowers in showy drooping racemes in winter.

Sold out for this season.

integrifolia (9)

GOLDSPIRE AZARA

Small tree to 15 ft. Bears deliciously fragrant small yellow flowers in masses on drooping branches.

Sold out for this season.

lanceolata (9)

LANCELEAF AZARA

Handsome shrub or small tree with slightly drooping branches bearing masses of fragrant yellow flowers.

gal.65

microphylla (9)

BOXLEAF AZARA

A vigorous, graceful shrub with small bright green leaves and small yellow fragrant flowers.

gal.60

BERBERIS corallina compacta (4)

(B. stenophylla nana compacta)

CORAL BARBERRY

A hardy evergreen hybrid from Ireland. Has small dark green foliage. Entire plants are covered with brilliant yellow flowers in Spring. A true dwarf suitable for rock gardens.

gal.60

stenophylla irwini (B. gracilis) (5)

IRWIN BARBERRY

Slow growing shrub of graceful habit. Flowers deep yellow.

gal.60

BRUNFELSIA calycina (7)

BRAZIL RAINTREE

Flowers open deep violet changing to white.

gal.60

CALLISTEMON citrinus splendens (9)**BRILLIANT BOTTLEBRUSH**

The most vividly colored red "Bottlebrush" we have ever seen. Heavy bloomer and of compact habit.

gal.60

CEANOTHUS gloriosus (7-8)**POINTREYES CEANOTHUS**

A splendid prostrate form. Flowers large, profuse and deep blue. Grows well and covers the ground like a mat.

gal.65

griseus horizontalis (8-9)**CARMEL CREEPER**

A fast growing, spreading variety. Flowers light blue.

gal.65

impressus (9)**SANTA BARBARA CEANOTHUS**

Flowers are deep blue in extreme profusion. Usually grows wider than high.

gal.60

Sierra Blue (8-9)

Large clusters of bright blue flowers. Upright habit.

gal.65

thyrsiflorus repens (7)**CREEPING BLUEBLOSSOM**

One of our best and hardiest creeping "Wild Lilacs." Flowers deep blue.

gal.65

CERATONIA siliqua (8)**CAROB; ST. JOHN'S BREAD**

Round-headed evergreen tree of medium size.

gal.55

CHOISYA ternata (6-7)**MEXICAN-ORANGE**

A compact free blooming shrub. Attractive green foliage; flowers pure white and fragrant.

2 to 3 ft. 2.50

1½ to 2 ft. 2.25

1 to 1½ ft. 2.00

gal.55

CISTUS corbariensis (7)

Growth low; flowers pure white and attractive.
gal.50

Doris Hibberson (7)**PINK ROCKROSE**

Handsome small sun-loving Rockrose with gray-green foliage and clear pink flowers in profusion.
gal.60

purpureus (6-7)**ORCHID ROCK-ROSE**

gal.50

CITRUS limon meyeri (8?)**MEYER DWARF LEMON**

Useful as well as ornamental. Makes a good rounded shrub. Flowers and fruits freely even when very young. Lemons are deep yellow and of good quality. Our stock is clean and can be shipped anywhere.

3	to 4	ft.	3.00
2½	to 3	ft.	2.75
2	to 2½	ft.	2.50
1½	to 2	ft.	2.25
1	to 1½	ft.	2.00
5	gal.		2.00
	gal.	60

Eureka Lemon (9?)

Medium sized fruit, with few seeds. Ripens almost continuously throughout the year.

4	to 5	ft.	3.50
3	to 4	ft.	3.00
1½	to 2	ft.	2.25
1	to 1½	ft.	2.00
	gal.	60

Eustis Limequat (9?)

Large shrub or small tree bearing edible yellow oval fruit up to 2 in. length.

gal.60

pomelo (9?)

Ornamental grape-fruit.

gal.60

Rangpur Lime (9½)

Orange-red tangerine shaped fruit.

5	gal.	2.00
	gal.60

CITRUS (continued)**sinensis nana (9?)****DWARF ORANGE**

An attractive dwarf form excellent for patio use.

gal. **1.00****sinensis Washington Navel Orange (9)**

Grown in bush form.

gal. **.75****CLETHRA arborea (9)****LILY-OF-THE-VALLEY CLETHRA**

A vigorous large shrub of quick growth.

Pure white, richly fragrant flowers borne in terminal panicles strongly resemble those of Lily-of-the-Valley. Requires acid soil.

gal. **.60****COLEONEMA pulchrum (9)****PINK DIOSMA**gal. **.50****CORNUS capitata (7)****EVERGREEN DOGWOOD**

Slow growing evergreen tree bearing cream colored flowers followed by attractive fruits.

5 gal. **2.50**gal. **.60****CORREA magnifica (9)****YELLOW AUSTRALIAN CORREA**

Tallest growing of the forms listed.

gal. **.60****pulchella (9)****PINK AUSTRALIAN CORREA**

Low growing shrub with dainty bell-shaped flowers from about mid-October thru mid-April.

gal. **.50****COTONEASTER apiculata (4)****CRANBERRY COTONEASTER**

Far superior to any of the other low spreading growers. The berries are gorgeous, largest of the Cotoneasters so far as we know. Our grafted plants commence bearing the first year as a rule.

gal. **.60**

COTONEASTER (continued)**conspicua decora (7)****NECKLACE COTONEASTER**

Small graceful shrub, almost prostrate. Bears an enormous crop of bright red berries all along the slender, arching branches.

gal.55

CRINODENDRON dependens (8)**WHITE LILY TREE**

An excellent small evergreen tree of quick growth; of good habit with gray-green foliage and bearing hanging white bell-shaped flowers. Grows well in any good soil.

gal.50

CYTISUS burkwoodi (6)**BURKWOOD BROOM**

Vigorous upright habit. Garnet red flowers.

gal.60

Maria Burkwood (6)

Red with creamy yellow keel. Spreading habit.

gal.60

DAIS cotinifolia (9)

Small evergreen tree or shrub producing beautiful fragrant pink flowers during the summer.

gal.60

DAPHNE collina (D. sericea) (7)

An excellent slow growing Daphne flowering when very young. Rosy-mauve; clove scented.

15 to 18 in. 2.50

12 to 15 in. 2.25

mantensiana (7) (new)**MANTEN DAPHNE**

Compact habit. Flowers profusely during spring and early summer. Orchid-mauve, fragrant.

18 to 24 in. 2.50

15 to 18 in. 2.25

12 to 15 in. 2.00

2 gal. 2.00

DAPHNE mantensiana

DAPHNE (continued)

odora alba (7-8)

WHITE WINTER DAPHNE

15 to 18 in.....	1.60
12 to 15 in.....	1.40

odora marginata (7-8)

YELLOWEDGE WINTER DAPHNE

Deep green leaves edged creamy white, pink fragrant flowers in clusters.

18 to 24 in.....	2.00
15 to 18 in.....	1.60

odora Rose Queen (7-8)

ROSE QUEEN WINTER DAPHNE

A distinct form of very compact habit. Leaves dark green. Flowers are deep rose pink, large and in heavy clusters.

18 to 24 in.....	2.00
15 to 18 in.....	1.60
12 to 15 in.....	1.40

DAPHNE (continued)**Somerset (5)****SOMERSET DAPHNE**

Evergreen with us. Bears deliciously fragrant flowers, pink opening white and becoming rose-pink before they drop. Spring blooming.

15 to 18 in.....	1.60
12 to 15 in.....	1.40

DODONAEA viscosa purpurea (8?)**PURPLE LEAVED DODONAEA**

A rapid-growing New Zealand shrub with bronzy leaves turning purple in Winter.

5 gal.	2.25
gal.65

DRIMYS winteri (9)**WINTERSBARK DRIMYS**

Small South American tree of the Magnolia family bearing small Jasmine-scented pure white flowers. Foliage aromatic.

5 gal.	2.50
gal.75

ELAEAGNUS pungens maculata (7)**GOLDEN ELAEAGNUS**

The entire central part of leaves is golden yellow with green margin.

San Jose hybrid (7)

JASMINUM parkeri (7)

PARKER JASMINE

A dainty miniature shrub of rounded, compact habit. Flowers bright yellow in profusion. Fine for rock gardens.

gal.60

LEPTOSPERMUM - TEATREE (9)

keatleyi, one of the finest of the species; large single pink flowers.

gal.55

Red Damask, soft red.

gal.55

LEUCADENDRON argenteum (10)

SILVER TREE

The famous Silver Tree of the Cape of Good Hope. Bark, branches and especially foliage are intensely silvery. Suitable only to warm climates.

4 in. pot..... .65

LIGUSTRUM

SWANEE RIVER PRIVET

(Plant Pat. No. 1402)

Low spreading habit, compact, dark green foliage. Resistant to drought and cold.

gal.95

LOROPETALUM chinense (7)

FRINGEFLOWER

A slow growing, shade loving shrub that starts blooming freely while still small. The graceful white flowers have strap-shaped petals like Witch Hazel and appear in late winter and early spring.

gal.60

MAGNOLIA delavayi (9)

DELAVAY MAGNOLIA

Evergreen tree with extremely attractive large tropical appearing foliage up to 14 in. long by 8 in. wide. Flowers creamy white, slightly fragrant.

Sold out for this season.

grandiflora (7)

SOUTHERN MAGNOLIA

A handsome tree with large glossy green foliage. The huge creamy-white fragrant flowers are up to 8 inches in diameter.

gal.50

MAGNOLIA (continued)**grandiflora St. Mary (7)****ST. MARY MAGNOLIA**

Especially desirable as it grows slower and smaller than *M. grandiflora*. The large tropical appearing foliage is deep glossy green above and covered with an attractive brown tomentosum beneath.

The beautiful immense flowers (12 to 14 in. diameter) when fully open are pure white and pleasantly fragrant. Plants bloom when very young.

5 gal. grafted.....**3.00**

gal. grafted**1.25**

**DODONAEA viscosa purpurea**

(see page 20)

MAHONIA lomariaefolia (6?)**CHINESE HOLLYGRAPE**

A relatively new Mahonia from Asia having large pinnate leaves up to 15 in. in length, each leaflet having deeply serrated and waved margins. Flowers are larger and brighter than American varieties, in clusters of as many as six or eight spikes, a brilliant chrome yellow. Habit of growth is somewhat more vigorous than *M. aquifolium* and the effect of the plant is tropical and very interesting.

5 gal.2.50

gal.65

4 in. pot..... .50

4 in. pot recommended for eastern L. C. L. shipments.

MAYTENUS boaria (7?)**MAYTEN**

Hardy small evergreen tree from Chile.

Sold out for this season.

MURRAYA paniculata (9)**ORANGE JESSAMINE**

Medium sized shrub with small bright green leaves and small waxy flowers with intense orange blossom fragrance.

gal.60

MYRTUS communis compacta (8)**COMPACT MYRTLE**

Slow growing, compact. Small glossy, green leaves.

gal.50

NERIUM oleander (9)**OLEANDER**

Our stock is clean, free from disease and can be shipped anywhere.

D 1½ to 2 ft.....1.50

OCHNA multiflora (9)

BIRD'S EYE BUSH

Attractive shrub with finely-toothed leaves of a bronzy tint. The yellow flowers are followed by red fruit.

gal.60

OLEA europaea (8-9)

OLIVE

Grown in tree form for ornamental purposes. Propagated from one of the best fruiting varieties.

5 gal.2.25

gal.60

OLMEDIELLA betscheleriana (10)

COSTA RICAN HOLLY

Evergreen shrub or small tree with thick, glossy serrated foliage.

gal.60

OSMANTHUS armatus (7)

CHINESE OSMANTHUS

A handsome species with deep green foliage up to 7 in. long. The fragrant white flowers are followed by small egg-shaped blue berries.

gal.60

aurantiacus (9)

ORANGE OSMANTHUS

Large shrub or small tree producing masses of small but deliciously fragrant orange colored flowers in fall and winter.

gal.60

delavayi (7-8)

DELAVAY OSMANTHUS

A very popular shrub that "has everything"—compact habit, arching branches, small attractive foliage and in the spring has possibly the richest scented white flowers of any in this genus.

gal.60

forresti (7)

FORRESTS OSMANTHUS

A vigorous shrub with attractive foliage from 5 to 7 in. long with wavy margins. Flowers creamy yellow and deliciously fragrant.

gal.60

OSMANTHUS (continued)**ilicifolius (6)****HOLLY OSMANTHUS**

Bush of slow compact growth with foliage similar to English Holly. Flowers in fall, pure white. Very attractive.

5 gal.	2.25
gal.60

San Jose hybrid (8)**SAN JOSE OSMANTHUS**

A tall shrub or small tree splendid for background planting. Attractive holly-like foliage. Produces fragrant creamy yellow flowers in fall.

4 to 5 ft.	2.50
3 to 4 ft.	2.00
5 gal.	2.00
gal.60

suavis (7)

Closely related to *O. delavayi* but of upright habit. Flowers are white and fragrant.

gal.60
-----------	-----

PHOTINIA arbutifolia (8-9)**CHRISTMAS BERRY; TOYON**

Native California shrub to 15 ft. bearing bright red berries.

Sold out for this season.

serrulata nova lineata (7)**REDTWIG CHINESE TOYON**

A very attractive sport of Chinese Toyon. New foliage is very light bronze and matured leaves are dark green marked white along midrib. Bark on new growth is a vivid bright red.

gal.60
-----------	-----

GRAFTED RHODODENDRONS

We are agents for **Cottage Gardens Co.** of Eureka, California, and offer an extensive list of varieties in assorted sizes, all flower budded, for West Coast delivery this winter. Write us for quotations.

PIERIS japonica (5)**LILY-OF-THE-VALLEY SHRUB**

An attractive bushy shrub of medium height with handsome glossy foliage. The white bell-shaped flowers are borne in profusion on long drooping racemes.

gal.60

POLYGALA virgata (9)

Tall shrub. Flowers purple or pink. Fine for for warm climates.

gal.60

PROSTANTHERA rotundifolia (9)**ROUNDEAVED MINTBUSH**

Small leaved medium-sized shrub. Flowers blue or purple.

gal.50

PYRACANTHA hyb. "San Jose" (7)**SAN JOSE FIRETHORN**

Bears the largest berries we have seen on a pyracantha (up to $\frac{5}{8}$ in. wide) in enormous clusters that are well placed. Color is nearly red with a slight orange tone.

gal.50

Government Red (5)

Bears red berries in large clusters; hardy.

gal.50

Santa Cruz (7)

Growth low and spreading, excellent for ground cover or banks. Berries bright red in profusion.

gal.55

PYRUS kawakami (8?)**EVERGREEN PEAR**

A handsome shrub or small tree with large, luxuriant foliage. White fragrant flowers massed in spring.

gal.75

QUERCUS suber (7)**CORK OAK**

A fine broad-headed evergreen tree.

gal.60

RAPHIOLEPIS indica rosea (7)**PINK INDIA RAPHIOLEPIS**

A slow growing shrub of good habit. Heavy dark green foliage assuming bronzy winter tints. Flowers are soft pink in the spring followed by blue berries. Grafted plants.

1½ to 2 ft.....	2.25
1 to 1½ ft.....	2.00
gal.75

COATES CRIMSON RAPHIOLEPIS (7)

(R. indica rubra) Pat. No. 1138.

It is slow growing, compact, about as wide as tall, and is ideal for base planting and where a low growing, permanent evergreen flowering shrub is desired.

The flowers are borne in numerous clusters, light to fairly deep crimson, and even on small pot plants. All stock offered is grafted and will come true to color and habit.

gal.	1.25

gal.85

ROMNEYA coulteri (5)**MATILIJA POPPY**

A large native shrub with blue-green foliage. Produces huge snow white "crepe paper" flowers with masses of golden stamens in the center.

gal.50
-----------	------------

trichocalyx "White Cloud" (5)

A selected form of above.

gal.75
-----------	------------

ROSMARINUS foresteri (8)**SANTA BARBARA ROSEMARY**

A semi-prostrate shrub.

gal.50

officinalis prostratus (6)**CREEPING ROSEMARY**

Excellent ground cover; fast growing.

gal.50

SARCOCOCCA hookeri humilis (7)**SMALL HOOKER SARCOCOCCA**

Growth very low and spreading, almost prostrate. The white flowers are small but profusely borne and quite fragrant. Likes part shade and acid soil.

Sold out for this season.**ruscifolia (7)****FRAGRANT SARCOCOCCA**

Handsome and desirable for part or full shade. Foliage glossy; flowers white, small and fragrant. Berries deep purplish red.

gal.50

saligna (7)**WILLOWLEAF SARCOCOCCA**

A Himalayan, shade loving, graceful shrub bearing white flowers followed by purple berries.

gal.50

SKIMMIA foremanni (7)**FOREMANN SKIMMIA**

Another fine, slow growing, shade loving evergreen. Leaves are large and glossy; berries bright scarlet. Does not require acid soil.

gal. female75

gal. male75

gal. self fertile75

japonica (male) (7)**JAPANESE SKIMMIA**

gal.75

STENOCARPUS sinuatus (9)**FIREWHEEL TREE**

One of Australia's most beautiful flowering evergreen trees with large oak-like leaves. Bears a profusion of bright red, wheel-shaped, showy flowers.

gal. 1.00

TERNSTROEMIA japonica**(Cleyera japonica) (6-7)****TERNSTROEMIA**

Foliage Camellia-like with reddish tint during the winter. Produces small fragrant flowers in summer followed by red berries.

gal.75

TRACHELOSPERUM jasminoides (8-9)**(Rhynchospermum jasminoides)****STAR JASMINE**

These plants can be used as ground cover or staked and grown as a flowering shrub. Thrive equally well in sun, shade or part shade. (See under Climbers also.)

gal.60

VIBURNUM burkwoodi (5)**BURKWOOD VIBURNUM**

Well-known shrub with rich glossy green foliage turning purplish bronze in winter. Flowers in large clusters, intensely fragrant, pink in bud and opening white.

gal.55

chenaulti (5)**CHENAULT VIBURNUM**

Similar to V. burkwoodi but with even larger flower-heads and finer foliage.

gal.60

VIBURNUM (continued)

cinnamomifolium (8)

CINNAMON VIBURNUM

Similar to *V. davidi* with larger, handsomer foliage. Much faster growing, making a fairly large shrub.

gal.**.60**

davidi (8)

DAVID VIBURNUM

A low, spreading compact shrub. Leaves leathery, large and very attractive. Blooms profusely in small white clusters followed by turquoise blue berries. Requires shade.

gal.**.75**

MAGNOLIA grandiflora "St. Mary"

(see page 23)

Flowering Fruit Trees

All plants in this section will be dug "bare roots." Grading is by caliper and approximate height, except Cherries.

(Orders must be in multiples of 5 of one size and kind.)

FLOWERING APPLES (5)

Special Varieties

almata

A fast growing, vigorous, upright ornamental tree. Buds red opening to very large clear pink flowers in great profusion, often semi-double. In our opinion this is one of the most attractive of all flowering apples.

5 to 6 ft.....	1.50
4 to 5 ft.....	1.25

almey

Strong growing upright tree. Double red flowers followed by attractive scarlet fruit.

Dawn, double pink.

Peggy Clarke, double rose.

Rosemary Clarke, double white.

HARDINESS MAP

HOW TO USE THIS MAP

From it determine what zone you are in. Every item carrying your zone number or a smaller number should be hardy with you. If you want to gamble on those rated one zone greater, there is at least a chance for success but two zones greater will probably be hopeless.

For full explanation of the entire system see Page 2.

SIBERIAN ELM; CHINESE ELM

A fine shade and street tree recommended for arid regions. Fast growing.

10 to 12 ft. branched.....	2.00
8 to 10 ft. branched.....	1.50
6 to 8 ft. branched.....	1.25

sp. "Buisman Elm" (4)

Small to medium sized broad-leaved tree resistant to Dutch Elm disease.

8 to 10 ft. branched.....	2.00
6 to 8 ft. branched.....	1.75

ZELKOVA serrata (5)

JAPANESE ZELKOVA

Small, attractive, elm-like tree; disease resistant.

gal. **.60**

Lilacs

SYRINGA vulgaris (3)

For more than twenty-five years we have been engaged in a program of Lilac breeding and selection with two main objectives; first to broaden the color range of Lilacs and second, to improve the form and size of the individual florets and of the flower clusters.

During this period we have tested and observed hundreds of Lilacs, both of our own breeding as well as all named varieties which we could obtain. Today we offer a selection which contains only the best of the finest Lilacs obtainable.

In order to make it possible for every nurseryman to readily obtain a collection of outstanding Lilacs we have ruthlessly culled our list, so that the ones listed here are a complete cross-section, both in color and form, of the best in *Syringa vulgaris* varieties.

NOTE: Lilacs require time to become fully established and cannot be expected to produce flowers of normal size and color for two or three years after transplanting. It is recommended that unopened flower buds be removed the first year after planting, and that faded flower clusters be removed in following years. It is also suggested that lilacs be planted with the bud union three or four inches below the surface of the ground.

All lilacs from 1½ ft. up have been pinched and are well-developed, branched plants.

(Please order bare-root lilacs in multiples of five of each size and variety as they are bundled that way when dug.)

NOVELTIES

B 3	to 4 ft. branched.....	1.50
C 2	to 3 ft. branched.....	1.25
D 1½	to 2 ft. branched.....	1.00

Letters after varieties indicate sizes available.

CLARKE'S GIANT, CD, Plant Pat. No. 754.

The flowers are **single**, soft gentian blue of enormous size, 1¼ to 1½ inches across, borne in huge clusters of unusual pyramidal form, up to 12 in. or better and 7 to 8 in. wide at base. Flower clusters are carried well above the large foliage. Fragrance leaves nothing to be desired.

NOVELTIES (continued)

ESTHER STALEY, BCD, Plant Pat. No. 768.

Fills all the requirements of a good single pink lilac. Opening buds are red; flowers, large **single**, and pure pink without the usual lavender tinge. Clusters are of good size and produced freely in midseason; growth very vigorous.

PURPLE GLORY, BC, Plant Pat. No. 946.

Long pyramidal clusters. Flowers **single**, 1 to 1½ inches wide, dark ruddy purple. Mid-late.

PURPLE HEART, BCD, Plant Pat. No. 832.

This very early variety has purplish black buds opening to deep purple, **single**, very large flowers attaining between 1¼ to 1½ inches in width, borne in large clusters.

SOUVENIR DE GEORGES TRUFFAUT, D

A magnificent novelty with very long and broad thyrses, enormous flowers, pale lilac flushed mauve, clearer eye. Flowers often **semi-double**.

SPLENDOR, BCD, Plant Pat. No. 837.

The dark ruddy purple buds open to purplish blue, moderately large **double** flowers in clusters of good size. Blooming time is from mid-season to late as it flowers over an unusually long period. The flowers are definitely not crowded together in the cluster, avoiding a trait that completely spoils so many otherwise good doubles.

SPRING GLORY, BC

This beautiful new **single** cyclamen-pink lilac has excellent, freely borne clusters with individual florets well placed, making an attractive fragrant bouquet. The plants grow bushy and vigorously.

SUNSET, BCD, Plant Pat. No. 937.

A striking late **double** that is unusual in several respects. Buds are deep mauve carmine; the fully double flowers with numerous long "petals" are large, over an inch wide and ruddy purple. Comes nearer to a real "double red" than anything else we have ever seen.

NOVELTIES (continued)

SWEETHEART, BC, Plant Pat. No. 1128.

The very striking and unique contrast between the color of the buds and open flowers makes this a most desirable variety. The buds are deep ruddy mauve. The open flowers are medium large, **double**, palest possible lavender, appearing almost white. Clusters are of medium size, borne in mid-season.

SELECTED LIST

B 3	to 4 ft. branched.....	1.10
C 2	to 3 ft. branched.....	.90
D 1½	to 2 ft. branched.....	.75

Letters after varieties indicate sizes available.

Double Flowering Group

Alice Eastwood, CD, dark purple buds, opening mauve pink with long, slim, elegant clusters, four sided, and frequently paired; medium late, on vigorous erect plants.

Ami Schott, BCD, very fine deep blue, midseason bloom, on sturdy, well developed plants.

Capt. Perrault, BCD, probably the best of the double pinks, early blooming and compact habit.

Ellen Willmott, BCD, white, with well-formed clusters, midseason bloom, on compact growing plants.

Gismonda, BCD, reddish purple, much darker in bud, with large individual "florets"—midseason to late bloom, on medium growing plants.

Jeanne d'Arc, BC, pure white, early blooms with flower clusters carried well above the foliage, on medium-strong plants.

Katherine Havemeyer, BCD, purplish mauve, rather large "solid" clusters, with midseason blooms, on medium fast growing plants.

Maximowicz (Maxie), BCD, violet heliotrope, well formed clusters, fairly early blooms on medium growing plants.

Mrs. Edward Harding, BCD, called "red" by its originator, it is more nearly a reddish purple, but a very fine unusual color in lilacs. Rapidly makes a large bush.

SELECTED LIST (continued)

Double Flowering Group (continued)

- Paul Thirion**, CD, claret rose, with individual 'florets' like large double violets; a late flowering variety, on a compact, rather slow growing bush.
- Prof. E. H. Wilson**, BC, snow white, large uncrowded clusters of very double flowers, blooming late, on medium growing plants.
- Violetta**, BCD, dark violet, very double flowers in medium clusters, about the latest to bloom; of medium growth habit.

Single Flowering Group

- Blue Hyacinth**, CD, dark blue hyacinth shaped flowers in large clusters, early blooming on erect growing plants. This is a fine, unique variety, and highly recommended.
- Firmament**, CD, sky blue with large well-placed clusters. Blooms in midseason on medium sized plants.
- Jan Van Tol**, BCD, purest white, large flowers in huge clusters, blooming in midseason. Clusters are well placed on medium fast growing bushes.
- Kate Sessions**, CD, mauve purple to blue, in large well placed compound clusters. This is the *earliest* of all our lilacs and deserves to be in every collection! Medium growing, bushy plants.
- Marceau**, BCD, deep violet purple, large individual flowers in heavy clusters, midseason to late blooming, and of medium growth habit.
- Marechal Foch**, BCD, carmine rose, in enormous trusses, early midseason blooms, on long straight stems from vigorous growing bushes.
- Monument**, CD, a showy white, in very compounded rounded clusters, blooming well above the foliage. Has an enormous crop of flowers in early midseason on fast-growing plants.
- Mrs. W. E. Marshall**, D, dark purple, in large clusters borne well above the foliage. Late blooming, on good medium growing plants.
- Prodige**, BCD, deep purple, large individual flowers in short, heavy clusters borne in midseason on medium growing bushes.
- Volcan**, BCD, dark ruby purple, medium flowers in medium sized clusters; rather late blooming on slow-growing plants. After over 60 years, this is still one of the better dark-flowered single varieties.

Assorted, grafted from choice named varieties.

gal. **.65**

Oriental Magnolias

We grow what is probably the most complete collection of deciduous Magnolias in this country and take great pleasure in offering this fine list.

All plants are grafted and will be balled at prices quoted.

Special Varieties

MAGNOLIA liliflora gracilis (5)

This is a very rare and striking variety. Buds are pansy black. Open flowers are almost that dark outside and dark velvety purple inside. Flowers are large and produced freely even on young plants. Do not confuse this with *M. liliflora*, the common purple Lily Magnolia.

4	to 5	ft.	4.00
3	to 4	ft.	3.50
2½	to 3	ft.	3.00
2	to 2½	ft.	2.50
1½	to 2	ft.	2.00

sinensis (7)

CHINESE MAGNOLIA

A lovely variety bearing pendulous saucer shaped pure white flowers with showy brilliant crimson stamens.

2	to 2½	ft.	2.50
1½	to 2	ft.	2.00

thompsoni (6)

THOMPSON MAGNOLIA

Large shrub or small tree. The large leaves assume a fine bronzy yellow autumnal tint. The flowers are creamy-white, richly fragrant, and borne freely over a long period commencing in May.

4	to 5	ft.	4.00
3	to 4	ft.	3.50
2½	to 3	ft.	3.00

veitchi (7)

VEITCH MAGNOLIA

A magnificent hybrid of *M. denudata* x *campbelli*. Very vigorous and quickly making a large tree bearing a profusion of rosy pink flowers of great size.

2½	to 3	ft.	3.00
2	to 2½	ft.	2.50
1½	to 2	ft.	2.00

Special Varieties (continued)

veitchi rubra (7) (new)

Has all the characteristics of *M. veitchi*, but the flowers are purple.

2½ to 3	ft.....	3.50
2 to 2½	ft.....	3.00

watsoni (5)

WATSON MAGNOLIA

An extremely rare natural hybrid from Japan of easy culture with handsome leaves and upright, fragrant creamy white flowers with rich rose-crimson stamens.

3 to 4	ft.....	3.50
2½ to 3	ft.....	3.00
2 to 2½	ft.....	2.50

wilsoni (5)

WILSON MAGNOLIA

Could be described as a glorified *M. parvifolia*, having very much larger snow-white drooping flowers with crimson column arising in center. Fragrance is intense and delightful. Flowers are remarkable in having as many as 8 or more petals.

3 to 4	ft.....	3.50
2½ to 3	ft.....	3.00
2 to 2½	ft.....	2.50

Stellata Varieties

MAGNOLIA stellata (5)

STAR MAGNOLIA

Fragrant flowers white to soft pink. Slow growing. Free blooming even on very small plants.

3 to 4	ft.....	3.50
2½ to 3	ft.....	3.00
2 to 2½	ft.....	2.50

stellata rosea (5)

PINK STAR MAGNOLIA

A pink form with a more vigorous upright habit. The flowers are larger, heavier petaled and are borne in great profusion, even on young plants.

2½ to 3	ft.....	3.00
2 to 2½	ft.....	2.50
1½ to 2	ft.....	2.00

Stellata Varieties (continued)**stellata rubra (5)****RED STAR MAGNOLIA**

A striking new and rare form. Back of petals deep purplish red; inside is a rich pink even when fully open. Stock limited.

2 to 2½ ft. **3.00**

1½ to 2 ft. **2.50**

stellata Waterlily (5)**WATERLILY MAGNOLIA**

A more compact pyramidal form of *M. stellata*. Flowers opening pure white and having more petals with greater substance.

3 to 4 ft. **4.00**

2½ to 3 ft. **3.50**

2 to 2½ ft. **2.50**

1½ to 2 ft. **2.00**

General List (5)

X - 6 to 7 ft. **4.50**

Y - 5 to 6 ft. **4.00**

A - 4 to 5 ft. **3.50**

B - 3 to 4 ft. **3.00**

C - 2½ to 3 ft. **2.50**

D - 2 to 2½ ft. **2.00**

Letters after variety indicate sizes available.

MAGNOLIA denudata (conspicua), ABCD**YULAN MAGNOLIA**

Pure white with a delicate pungent fragrance.

liliflora nigra, BCD**PURPLE LILY MAGNOLIA**

Growth shrubby and erect. Flowers deep purple outside.

soulangeana Alexandrina, CD**ALEXANDER MAGNOLIA**

Large cup-shaped flowers, deep rose right to the tops; white inside. Early.

soulangeana ambilis, XYAB**(M. alba superba)****WHITE SAUCER MAGNOLIA**

Flowers are somewhat purplish at first, becoming nearly but not entirely white when full open.

General List (continued)

soulangeana Burgundy, XA

BURGUNDY MAGNOLIA

An unidentified but very pleasing and distinct form. The flowers are much larger than type, well rounded, purple about half way up on the outside of the petals.

soulangeana lennei, D

LENNE MAGNOLIA

Bears enormous balloon-shaped, very deep ruddy purple flowers. One of the latest to bloom.

soulangeana lennei, BD

EARLY LENNE MAGNOLIA

Selected early flowering form of above.

soulangeana rubra, BCD

Flowers are distinct in that they are definitely rounded, not long and slender. Color is a deep ruddy purple to tips of petals.

soulangeana rustica, BC

PURPLE SAUCER MAGNOLIA

Large, rounded flowers, deep ruddy purple to tips. A vigorous grower.

soulangeana San Jose, CD

Comes into bloom very early and is certainly the largest of the light colored soulangeana forms. Flowers white lightly flushed pink.

MAGNOLIA soulangeana

(assorted named varieties)

gal. **1.75 to 2.25**

ROSES

See our descriptive catalog No. 5801 for the finest "Northern California grown nature ripened" Bush and Tree Roses, both patented and non-patented varieties including the 2 All America winners for 1958.

Flowering Quinces

Chaenomeles (Cydonia) (4-5)

Our 25 or more years of breeding and selecting Flowering Quinces has resulted in several completely new varieties being offered to the trade. These are unique in form, quantity of bloom and the tremendous increase in size and color range of the flowers.

We have carefully revised our list as new introductions have proven themselves so that today we can offer the finest, most complete list of Flowering Quinces available anywhere.

Because of the extremely long blooming season and the short dormant period of Flowering Quinces here on the West Coast, it is recommended that when received, the plants be canned immediately so that later crops of flowers will develop for display; although the best flowers will not be produced until the plants have been established for at least a year.

(Quinces must be ordered in multiples of 5 of a size and variety as they are bundled in that way when dug.)

FLOWERING QUINCE CAMEO

FLOWERING QUINCES (continued)

NOVELTIES

Below are listed two of our latest introductions which we believe to be the best flowering quinces we have seen to date.

They are also examples of the new improved forms, one being upright and fairly rapid growing, while the other is low and spreading. Both are thornless.

CLARKE'S GIANT RED

The more than 20 years of Quince breeding by the late W. B. Clarke has resulted in producing what we believe to be the largest and finest red flowering Quince to date. **Clarke's Giant Red** is a deep, bright red of great brilliancy, 2½ inches or more in diameter. The enormous overlapping petals and prominent golden stamens make a showy contrast. It is an orderly shaped shrub with dark green serrated foliage. Extremely free blooming, having several crops of blossoms, resulting in a long flowering season.

3	to 4 ft.	1.50
2	to 3 ft.	1.25
1½	to 2 ft.	1.00

CAMEO

The finest **double** flowering Quince we have found, having 20 or more petals and a pleasing, soft apricot-pink coloring. Flowers are large and borne in great profusion on the compact, bushy plants. This variety is outstanding in every way including color, doubleness and freedom of bloom. Habit of growth low and spreading, and thornless.

3	to 4 ft.	1.50
2	to 3 ft.	1.25
1½	to 2 ft.	1.00

FLOWERING QUINCES (continued)

SELECTED LIST

3	to 4 ft.....	1.25
2	to 3 ft.....	1.00
1½	to 2 ft.....	.80

Available in all sizes except where otherwise shown.

AFTERGLOW, Plant Pat. No. 847. Large *double* flowers, opening pure white, later becoming pink, and finally rose. First crop opens medium late, with later crops after foliage starts. Plants are bushy and erect.

APPLEBLOSSOM, a unique blending of rose, pink and white flowers open almost white and quickly deepen to the "appleblossom" coloring. Early to midseason, with long blooming period. Erect growing shrubs.

CANDIDA, large pure white, blooming in early midseason, with one or more later crops of flowers. Of tall and fairly rapid growth habit.

CARDINAL, very large brilliant deep red flowers borne profusely all over the plant. Early blooming, and bearing flowers continuously for a long period of time on the tall, bushy plants.

CHARMING, soft shell pink, deepening toward the edge of the petals. Flowers borne on long thornless shoots in a succession of crops. An orderly shrub to about 6 feet.

CORAL BEAUTY, very fine rosy coral, with a softer coloring at center of flower. Blooms early to late with several crops of flowers. Shrub is bushy and wider than high, practically thornless.

CRIMSON & GOLD, large flowers a magnificent deep crimson, with large showy golden anthers. One of the earliest to bloom, but lasting well toward the end of the season with a succession of blooms. A neat, well branched shrub of moderate height.

ENCHANTRESS, very large flowers, a true shell pink deepening somewhat with age. Early midseason to late blooming on an upright growing plant.

FLAMINGO, a soft coral pink, large flowers, having a long blooming season. An upright growing, many-branched plant.

FLOWERING QUINCES (continued)

SELECTED LIST (continued)

MINERVA, enormous flowers, a vivid rose, deepening to rose red. Blooms from midseason to later than almost all other Quinces. Habit is low growing, but erect.

(available in 2 to 3 ft. and 1½ to 2 ft. grade only)

PINK BEAUTY, flowers opening pink, deepening to rose pink as they mature. Very early and heavy bloom, followed by a succession of several later heavy crops of flowers. Growth is vigorous and upright.

PINK LADY, large clear pink flowers, first crop early, followed by several more crops. Growth is low and spreading and plants are practically thornless.

RED CHIEF, deep red *double* flowers, opening in mid-season and continuing with a succession of flower crops to late in the season. Of medium size and upright growth habit.

RED RUFFLES, Plant Pat. No. 941.

Large brilliant red ruffled flowers of exceptional quality. Blooms heavily from midseason to late. An upright, slender and vigorous grower.

ROXANA FOSTER, flowers large and profuse, a deep shell pink, shading to carmine at the tips. Blooms almost continuously from midseason to late. Habit is compact and slow growing.

SNOW, enormous snow white flowers without any other color, blooming from midseason to late, on strong well developed plants. This is the best white flowered Quince we have seen.

STANFORD RED, the large flowers open tomato red, deepening to a rich red. Blooms from early mid-season to very late, and cut flower branches last exceptionally well indoors. A rapid growing, spreading plant, of pleasing habit, and highly recommended.

TEXAS SCARLET, very large watermelon red or scarlet flowers, profuse blooming from early midseason to late. Plant is of moderate, compact growth, and thornless.

QUINCES by color only.

Red, Orange, Pink, White and Bicolor.

gal. grafted65

Deciduous Shrubs

Unless otherwise stated, all plants in this section will be dug "bare roots".

VIRGILIA divaricata (7)

A South African tree of medium size bearing sweetpea shaped flowers.

gal.60

WEIGELA (5)

gal.50

Eva Rathke, red.

Le Printemps, light pink.

Newport Red

praecox floreale, crimson.

rosea, pink.

Springtime, rose outside, flesh inside.

XANTHOCERAS sorbifolium (5)

YELLOWHORN; HYACINTHSHRUB

A beautiful deciduous flowering shrub or small tree. Leaves resemble those of Mountain Ash. Flowers are funnel-shaped with five white, crinkled petals, borne in erect panicles. At base inside are five little bright yellow horns, also a conspicuous blotch which soon turns red. Flowers profusely in late spring.

gal.60

WISTERIA floribunda violacea plena

Climbers

CAMPISIS grandiflora (7)

CHINESE TRUMPETCREEPER

Bears great sprays of funnel-shaped yellowish flowers suffused at tips with orange-red.

2 yr. field grafts, bare root.....1.10

Mme. Galen (5)

(Tecoma radicans x Campsis grandiflora)

Hardier and stronger growing than C. grandiflora. The flowers, borne in large clusters at end of shoots, are almost as large as those of C. grandiflora and much redder. It blooms profusely all summer.

2 yr. field grafts, bare root.....1.10

1 yr. field grafts, bare root......85

EUONYMUS fortunei radicans variegatus (5)

CHINESE VARIEGATED EUONYMUS

Hardy evergreen groundcover.

gal.50

HARDENBERGIA Hardy Violet (8-9)

HARDY VIOLET VINELILAC

Bears a profusion of rich violet small pea-shaped flowers in racemes like miniature Wisterias.

gal.50

TRACHELOSPERMUM (Rhynchospermum)

asiaticum (7), primrose yellow.

gal.60

jasminoides (8-9)

STAR JASMINE

Can be used as a climber or as ground cover.

Bears fragrant white flowers in profusion.

gal.60

ROSES

BUSH, CLIMBING AND TREE FORM

See our list No. 5801 for complete descriptive catalog of the finest Northern California grown Roses—both patented and non-patented varieties.

Wisterias

For many years we have grown what we believe to be the best available collection of Wisterias in this country, both vines and tree form.

They range in color through dark purple, lavender, blue, pink and white, and in form, from the long-clustered *floribunda* (Japanese) types to the short-clustered *sinensis* (Chinese) and *venusta* (Silky) types.

We call your attention to the list and descriptions below, and invite you to try out these spectacular climbers and trees, as they are hardy throughout the United States, except for the coldest areas of Zones 3 and 4.

Climbing form, grafted (4-5)

3 year	1.50
2 year	1.25

floribunda Geisha (4), blue

floribunda Issai, blue purple.

floribunda longissima, extra long light purple.

floribunda longissima alba, white.

floribunda rosea, pink

floribunda Royal Purple, violet purple.

floribunda violacea plena, double violet.

sinensis (5), Chinese Wisteria, blue.

sinensis alba, White Chinese Wisteria.

venusta alba (5), White Silky Wisteria.

venusta violacea, Silky Wisteria, lavender purple.

See page 25 for
TREE WISTERIAS

Tree Wisterias

These unusual Wisterias grown in tree or "Standard" form are greatly desired as specimen plants. When they are mature they have heads to 6 or 8 feet in diameter, and carry hundreds of flower racemes hanging gracefully all over the tree.

Because it is necessary to prune or "pinch" the long runners formed each Spring, these trees produce a maximum of short flowering spurs, so that the mass effect of such trees in full bloom is almost unbelievable.

Plants listed below are already headed, and need merely to be planted, staked and pruned occasionally during the growing season to give the most beautiful display each Spring.

grafted

New Garden Aristocrats

For the first time in a number of years we have again issued a colored, illustrated brochure describing in some detail many of our newer and specialty items. Copies of *Garden Aristocrats* will be mailed to all nurserymen on our mailing list.

Garden Aristocrats is designed so that it can be used either as a mailing piece by the retailer to his customers, or as a broadside to be hung in the nursery for ready reference.

Additional copies are available to all nurserymen desiring them. Please write for further details.
